### Interventions to Prevent Drugged Driving: A Systematic Review

Amir Razaghizad, BSc, Sarah B. Windle, MPH, Genevieve Gore, MLIS, Andrea Benedetti, PhD, Carolyn Ells, PhD, Roland Grad, MDCM, MSc, Kristian B. Filion, PhD, Mark J. Eisenberg, MD, MPH

(see page 267)

This article has been chosen to participate in the AJPM CME program. Please read and follow the instructions below:

#### Educational objectives

After reading this article, the learner should be able to:

1. Recognize the potential negative consequences of drug-impaired driving on traffic injuries and fatalities among at-risk individuals and the general public.
2. Understand the analytical framework with which to address drug-impaired driving and recognize the patient groups who may benefit most from preventive intervention.
3. Comprehend the potential impact of preventive activities that may be implemented, recommended, or provided by health care providers, or initiated at the public health level.

#### Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME). The American College of Preventive Medicine is accredited by the ACCME to provide continuing medical education for physicians.

#### Credit Designation

ACPM designates this enduring material for a maximum of 1 *AMA PRA Category 1*<sup>TM</sup> Credit per exam. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ACPM is not accredited to offer credit to non-physicians. To determine if activities designated for *AMA PRA Category 1*<sup>TM</sup> Credit are acceptable for your licensing or certification needs, please contact your credentialing body directly.

#### Disclosures

In accordance with the disclosure policy of the American College of Preventive Medicine (ACPM) and the American

Journal of Preventive Medicine (AJPM), as well as the standards set forth by the Accreditation Council of Continuing Medical Education (ACCME), authors and any individuals in a position to control the content of a CME activity are required to disclose relevant financial relationships in any amount with commercial interests (within the past 12 months).

The authors, Amir Razaghizad, Sarah B. Windle, Genevieve Gore, Andrea Benedetti, Carolyn Ells, Roland Grad, Kristian B. Filion, and Mark J. Eisenberg, have disclosed that no relevant financial relationships exist.

#### Term of approval

August 2, 2021–August 2, 2024

Estimated time to complete this activity is 1 hour.

#### Instructions to receive CME credit

Once you have read the CME article, please visit [www.ajpmonline.org/cme](http://www.ajpmonline.org/cme) to complete the CME exam (with a score of at least 70%) and the CME evaluation survey. You will be able to download your CME certificate and will also receive an email with a link to your certificate. CME credit is free to AJPM subscribers, including members of ACPM and APTR. Non-members and non-subscribers can purchase a CME certificate upon successful completion of the CME test.

#### Privacy policy

ACPM collects personal information from participants in this online activity for purposes of assigning CME credit only. We will not share or sell your contact information, and your answers to quizzes and feedback forms will be kept confidential.
